### Legend

- Major Thoroughfares
- Minor Thoroughfares
- Collector Streets
- - - Proposed Minor Thoroughfares
- - - Proposed Collector Streets

The primary purpose of the Oak Ridge Thoroughfare/Collector Street Plan is to identify needed improvements to Major and Minor Thoroughfares, as well as to identify strategic and logical locations for future streets to be built in conjunction with new developments. Adoption of the Plan would not "lock-in" proposed street locations. Decisions on whether to require a particular connection and the setting of future roadway alignments will be made on a case by case basis in consideration of site specific information.
