MACCAFFREY – Site Objective

- **The coverage objective of site MACCAFFREY @ 120 ft is to provide reliable, contiguous coverage in northwest side of the current site on I-73 to improve the drop call performance.**
- **Currently there is unreliable coverage and excessive drop calls on I-73 due to lack of RF dominance.**
- **MACCAFFREY @ 120 ft and the existing location will integrate well into the wireless network to provide reliable, contiguous wireless coverage and it will improve the drop calls and overall experience for the customers.**

Thank You
