

AGREEMENT FOR ENGINEERING SERVICES

This AGREEMENT, made and entered into this the _____ day of _____ 2021, by and between the **Town of Oak Ridge** (OWNER) and **McGill Associates, P.A.** (ENGINEER).

WHEREAS, the OWNER proposes to do certain work toward the accomplishment of the Project entitled **Whitaker Property Park Development** as generally described in Attachment "A" and

WHEREAS, the ENGINEER desires to render professional services in accordance with this Agreement.

NOW, THEREFORE, in consideration of the mutual covenants and benefits contained herein, it is hereby mutually understood and agreed as follows:

SECTION 1 - GENERAL SERVICES

The ENGINEER shall:

- 1.1. The ENGINEER shall, as directed by the OWNER, provide professional engineering services for the OWNER in the first phase of the Project; serve as OWNER's professional engineering representative for the Project; and provide professional consultation and advice to OWNER during the performance of the services hereunder.
- 1.2. The ENGINEER shall provide all personnel required in performing the Project unless otherwise provided herein. Such personnel shall not be employees of or have any contractual relationship with the OWNER. All services rendered hereunder shall be performed by the ENGINEER or under his supervision and all personnel engaged in the Project shall be fully qualified under North Carolina law to perform such services.
- 1.3. The ENGINEER shall obtain and furnish, or cause to be obtained and furnished, approvals and permits from all governmental authorities having jurisdiction over the Project, unless otherwise agreed to herein.
- 1.4. The ENGINEER shall seek and obtain authorization from the OWNER or the OWNER's assignee before proceeding with the Project, or before performing any Additional Services as described in Section 3, or before performing any other services which would not be included in the fee for Basic Services set forth in Section 6 hereof, subject to OWNER's right to terminate as herein provided.
- 1.5. The ENGINEER shall comply with all existing federal, state and local laws and regulations regarding equal employment opportunity. The ENGINEER is further obligated to include all requirements hereunder in any subcontract written by him in association with this Agreement.

SECTION 2 - BASIC SERVICES

2.1 DESIGN AND PERMITTING PHASE

- 2.1.1 Meet with the Town of Oak Ridge for the purpose of establishing communication lines, meet project team members, define project schedules, and gather initial data.
- 2.1.2 Complete an initial site investigation with the design team to review base survey information, existing site features, etc.
- 2.1.3 Establish geodetic survey control and aerial targeting in the project area tied to NAD83(2011) and NAVD88 (GEOID12B) for field and aerial mapping efforts.
- 2.1.4 Provide photogrammetry of the project area to include above ground, visible planimetric features and a digital terrain model suitable for producing a one foot contour interval.
- 2.1.5 Perform field surveying to locate planimetric and topographic features, property boundary, and location of utilities.
- 2.1.6 Contact NC One Call and request utility locations for the project area along Oak Ridge Road and Scoggins Road, and locate the utilities as marked by representatives of the respective utilities. Please be aware, NC One Call utility representatives are likely to locate only those underground utilities within the right-of-way of the roadway. NC One Call utility representatives will not locate underground utilities on private property. If there is a need for underground utility mapping across portions of the site that are outside of the road right-of-way, a quote from a private utility locator can be provided.
- 2.1.7 Prepare **Schematic Design Documents** to include the following:
 - A. Driveway, parking, restroom facility, prefabricated picnic shelters, landscaping, and supporting infrastructure. Water and sewer service for restrooms, shelter, and irrigation will be provided on-site.
 - B. Park amenities including walking trails, multipurpose fields, playground, basketball court, and tennis courts.
 - C. Veterans memorial site preparation. (Memorial design to be completed by others)
- 2.1.8 Prepare a probable opinion of cost for the OWNER to review.
- 2.1.9 Review Schematic Design Documents with the Town of Oak Ridge.
- 2.1.10 Address comments from the Town of Oak Ridge and prepare Design Development Documents, including grading, drainage, erosion control, landscaping, architectural, and engineering drawings.

- 2.1.11 Prepare complete bid documents, contract documents, technical specifications and construction drawings to detail the character and scope of the work.
- 2.1.12 Review design documents with the Town of Oak Ridge for comments and approval prior to bidding.
- 2.1.13 Submit design documents to the appropriate agencies for review and permitting. Address any comments received.
- 2.1.14 Perform an internal quality control and constructability review of the project.
- 2.1.15 Furnish up to two (2) hard copies of the final design documents to the OWNER.

2.2 BIDDING AND AWARD PHASE

- 2.2.1 Assist the OWNER in advertising, receiving, opening and evaluating bids.
- 2.2.2 Consult with and advise the OWNER as to the acceptability of contractors and subcontractors and make recommendations as to the lowest, responsive, responsible bidder.
- 2.2.3 Assist the OWNER in the final preparation and execution of construction contracts and in checking Performance and Payment Bonds and Insurance Certificates for compliance.
- 2.2.4 Schedule a Pre-Construction Conference with the OWNER, Contractor, ENGINEER and all other applicable parties to assure discussion of all matters related to the Project. Prepare and distribute minutes of the Pre-Construction Conference to all parties.

2.3 CONSTRUCTION PHASE

Upon successful completion of the Bidding and Award Phase, and upon written authorization from OWNER, ENGINEER shall:

- 2.3.1 Provide General Administration of Construction Contract. Consult with OWNER and act as OWNER's representative as provided in the General Conditions. The extent and limitations of the duties, responsibilities, and authority of ENGINEER as assigned in the General Conditions shall not be modified, except as ENGINEER may otherwise agree in writing. All of OWNER's instructions to Contractor will be issued through ENGINEER, which shall have authority to act on behalf of OWNER in dealings with Contractor to the extent provided in this Agreement and the General Conditions except as otherwise provided in writing. ENGINEER shall not be responsible for the acts or omissions of any Contractor, or of any subcontractors, suppliers, or other individuals or entities performing or furnishing any of the Work. ENGINEER shall not be responsible for the failure of any Contractor to perform or furnish the Work in accordance with the Contract Documents.
- 2.3.2 Provide a Construction Field Representative (CFR) to periodically observe the progress and quality of the executed work and to determine in general if the work is proceeding in accordance with the Contract Documents. During such visits and

on the basis of on-site observations as an experienced and qualified design professional, keep the OWNER informed of the progress of the work, endeavor to guard the OWNER against defects and deficiencies in the work of the Contractor.

- 2.3.3 The total construction contract time is assumed to be seven (7) months. As part of this contract, field observation will be provided by a CFR on a part-time basis during active work. Additional CFR time or construction services will involve an increase in the payments to the ENGINEER as Additional Services under Section 3 of this Agreement.
- 2.3.4 The purpose of ENGINEER's visits and the representation by the Construction Field Representative, (CFR) at the Site, will be to enable ENGINEER to better carry out the duties and responsibilities assigned to and undertaken by ENGINEER during the Construction Phase, and, in addition, by the exercise of ENGINEER's efforts as an experienced and qualified design professional, to provide for OWNER a greater degree of confidence that the completed Work will conform in general to the Contract Documents and that Contractor has implemented and maintained the integrity of the design concept of the completed Project as a functioning whole as indicated in the Contract Documents. ENGINEER shall not, during such visits or as a result of such observations of Contractor's Work in progress, supervise, direct, or have control over Contractor's Work, nor shall ENGINEER have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected or used by Contractor, for security or safety on the Site, for safety precautions and programs incident to Contractor's Work, nor for any failure of Contractor to comply with Laws and Regulations applicable to Contractor's furnishing and performing the Work. Accordingly, ENGINEER neither guarantees the performance of any Contractor nor assumes responsibility for any Contractor's failure to furnish and perform the Work in accordance with the Contract Documents. However, ENGINEER shall give prompt notice to the OWNER whenever ENGINEER observes or otherwise becomes aware of any defect in the Project or of any material deviation of Contractor's work from the Contract Documents.
- 2.3.5 Review and determine the acceptability of any schedules that Contractor is required to submit to ENGINEER, including Progress Schedule, Schedule of Submittals and Schedule of Values.
- 2.3.6 Based on ENGINEER's observations as an experienced and qualified design professional and on review of Applications for Payment and accompanying supporting documentation:
- a. Determine the amounts that ENGINEER recommends Contractor be paid. Such recommendations of payment will be in writing and will constitute ENGINEER's representation to OWNER, based on such observations and review, that, to the best of ENGINEER's knowledge, information and belief, Contractor's Work has progressed to the point indicated, the quality of such Work is generally in accordance with the Contract Documents (subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, to the results of any subsequent tests called for in the Contract Documents, and to any other qualifications stated in the recommendation), and the conditions precedent to Contractor's being entitled to such payment appear to have been fulfilled in so far as it is ENGINEER's responsibility to

observe Contractor's Work. In the case of unit price work, ENGINEER's recommendations of payment will include final determinations of quantities and classifications of Contractor's Work (subject to any subsequent adjustments allowed by the Contract Documents).

- b. By recommending any payment, ENGINEER shall not thereby be deemed to have represented that observations made by ENGINEER to check the quality or quantity of Contractor's Work as it is performed and furnished have been exhaustive, extended to every aspect of Contractor's Work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to ENGINEER in this Agreement and the Contract Documents. Neither ENGINEER's review of Contractor's Work for the purposes of recommending payments nor ENGINEER's recommendation of any payment including final payment will impose on ENGINEER responsibility to supervise, direct, or control Contractor's Work in progress or for the means, methods, techniques, sequences, or procedures of construction or safety precautions or programs incident thereto, or Contractor's compliance with Laws and Regulations applicable to Contractor's furnishing and performing the Work. It will also not impose responsibility on ENGINEER to make any examination to ascertain how or for what purposes Contractor has used the moneys paid on account of the Contract Price, or to determine that title to any portion of the Work in progress, materials, or equipment has passed to OWNER free and clear of any liens, claims, security interests, or encumbrances, or that there may not be other matters at issue between OWNER and Contractor that might affect the amount that should be paid.

- 2.3.7 Assist the OWNER in the selection and coordination of an independent geotechnical and materials testing laboratory, if required, to be provided at the OWNER's expense.
- 2.3.8 Review and take action in respect to Shop Drawings and Samples and other data which Contractor is required to submit, but only for conformance with the information given in the Contract Documents and compatibility with the design concept of the completed Project as a functioning whole as indicated by the Contract Documents. Such reviews and any approvals or other action will not extend to means, methods, techniques, sequences, or procedures of construction or to safety precautions and programs incident thereto. Review of Shop Drawings and Samples identified as frivolous in the General Conditions of the construction contract documents, or review of substitute materials as defined in the same, shall be deemed as Additional Services.
- 2.3.9 Issue instructions to the Contractor from the OWNER as to interpretations and clarifications to the project design plans, specifications and contract documents.
- 2.3.10 Render formal written decisions on all duly submitted issues relating to the acceptability of Contractor's work or the interpretation of the requirements of the Contract Documents pertaining to the execution, performance, or progress of Contractor's Work; review each duly submitted Claim by OWNER or Contractor, and in writing either deny such Claim in whole or in part, approve such Claim, or decline to resolve such Claim if ENGINEER in its discretion concludes that to do so would be inappropriate. In rendering such decisions, ENGINEER shall be fair and

not show partiality to OWNER or Contractor and shall not be liable in connection with any decision rendered in good faith in such capacity.

- 2.3.11 Prepare information required to resolve problems due to actual field conditions and to respond to Requests for Information (RFI) from the Contractor.
- 2.3.12 Recommend to OWNER that Contractor's Work be rejected while it is in progress if, on the basis of ENGINEER's observations, ENGINEER believes that such Work will not produce a completed Project that conforms generally to the Contract Documents or that it will threaten the integrity of the design concept of the completed Project as a functioning whole as indicated in the Contract Documents.
- 2.3.13 Recommend Change Orders and Work Change Directives to Owner, as appropriate, and prepare Change Orders and Work Change Directives as required.
- 2.3.14 Review the Contractor's final application for payment and make recommendation as to approval once all issues with the project final observation site visit have been completed and resolved.
- 2.3.15 Promptly after notice that Contractor considers the entire Work ready for its intended use, in company with OWNER and Contractor, conduct a pre-final observation site visit to determine if the Work is substantially complete. If after considering any objections of OWNER, ENGINEER considers the Work substantially complete, ENGINEER shall deliver a certificate of Substantial Completion to OWNER, Infrastructure Finance Services, and Contractor.
- 2.3.16 In company with OWNER's representatives, conduct a final observation site visit to determine if the Project has been completed in accordance with the Contract Documents and if the Contractor has fulfilled all of his obligations thereunder so that the ENGINEER may approve to the OWNER final payment to the Contractor.
- 2.3.17 Provide or make available all Project files and information to effect project closeout.

SECTION 3 - ADDITIONAL SERVICES

If authorized by the OWNER, the ENGINEER will furnish or obtain from others additional services of the following types, which are not considered Basic Services under this Agreement.

- 3.1 Additional services resulting from significant changes in general scope of the Project or its design including, but not limited to, changes in size, complexity, OWNER's schedule, or character of construction. The ENGINEER and OWNER agree that time is of the essence in order to meet funding application deadlines. As such, the OWNER may initiate minor changes in the project scope to be incorporated by the ENGINEER, subsequent to the permit submittals, as not to impede progress toward the funding application deadlines. No work on any such changes shall occur by the ENGINEER unless preapproved by the OWNER. Revising previously approved studies, reports, design documents, drawings or specifications, when such revisions are due to causes beyond the control of the ENGINEER.
- 3.2 Preparing documents for alternate bids requested by the OWNER for work, which is not executed, or documents for out-of-sequence work other than agreed upon in the Planning Phase.
- 3.3 Additional or extended services during construction made necessary by prolongation of the construction contract, award of multiple contracts, or default by the Contractor under any prime construction contract if such construction contract is delayed beyond the original completion date.
- 3.4 Providing geotechnical and subsurface investigations, archeological surveys and any other environmental site surveys necessary for the construction of the project.
- 3.5 Review of Shop Drawings and Samples identified as frivolous in the General Conditions of the construction contract documents, or review of substitute materials as defined in the same General Conditions.
- 3.6 Preparing to serve or serving as a witness for the OWNER in any litigation, condemnation or other legal or administrative proceeding involving the Project.
- 3.7 Additional services in connection with the Project, including services normally furnished by OWNER and services not otherwise included in this Agreement.
- 3.8 Additional services in connection with administering project funding.
- 3.9 Preparing easement maps or plats.
- 3.10 Soliciting bids for elements to be supplied by OWNER.
- 3.11 Preparing design of retaining wall and/or certification if required.
- 3.12 Offsite engineering for water supply, utilities, and drainage.
- 3.13 Preparation of recombination plat.
- 3.14 Preparation of transportation studies and/or offsite roadway design.

SECTION 4 - OWNERS RESPONSIBILITIES

The OWNER shall:

- 4.1 Provide full information as to the requirements for the Project.
- 4.2 Assist the ENGINEER by placing at his disposal in a timely manner all available information pertinent to the Project including previous documents and any other data relative to the evaluation, design, and construction of the Project.
- 4.3 Designate a person to act as OWNER's representative with respect to the work to be performed under this Agreement; and such person shall have complete authority to transmit instructions, receive information, interpret and define OWNER's policies and decisions pertinent to the services in this Agreement.
- 4.4 Guarantee access to and make all provisions for the ENGINEER to enter upon public and private property as required for the ENGINEER to perform the services under this Agreement, provided the same does not unreasonably interfere with the operation of the existing facilities.
- 4.5 Examine all studies, reports, sketches, estimates, specifications, drawings, proposals and other documents presented by the ENGINEER and render decisions and comments pertaining thereto within a reasonable time so as not to delay the services of the ENGINEER.
- 4.6 Obtain any right-of-way easements from public bodies, entities or persons necessary for satisfactory construction of the Project.
- 4.7 Obtain any subsurface geotechnical investigations or other types of testing and analysis needed for the Project.
- 4.8 Pay for permit fees, and all costs incidental to advertising for bids, and receiving bids or proposals from licensed Contractors.
- 4.9 Provide such legal, accounting and insurance counseling services as may be required for the Project, and such auditing services as may be required to ascertain how or for what purpose any Contractor will or has used the monies paid to him under the construction contract.
- 4.10 Give prompt notice to the ENGINEER whenever the OWNER observes or otherwise becomes aware of any defect in the Project.
- 4.11 Furnish approvals and permits from all governmental authorities having jurisdiction over the Project and such approvals and consents from others as may be necessary for completion of the Project, subject to the obligations of the ENGINEER outlined in Section 1.3 of this Agreement.
- 4.12 Furnish, or direct the ENGINEER to provide necessary Additional Services as stipulated in Section 3 of this Agreement or other services as required.
- 4.13 Bear all costs incident to compliance with the requirements of this Section 4, except where Contractor will assume responsibility for the same.

SECTION 5 - PERIOD OF SERVICES

- 5.1 Unless this Agreement has been terminated as provided in paragraph 7.1, the ENGINEER will be obligated to render services hereunder for a period, which may reasonably be required for the services described herein. The ENGINEER may decline to render further services hereunder if the OWNER fails to give prompt approval of the various phases as outlined. Upon receiving a written authorization to proceed, the ENGINEER shall provide the OWNER with a written schedule of completion for the services so authorized.
- 5.2 If the Project is delayed significantly for reasons beyond the ENGINEER's control, the various rates of compensation provided for elsewhere in this Agreement shall be subject to renegotiation.

SECTION 6 - PAYMENT TO THE ENGINEER

6.1 PAYMENT FOR BASIC SERVICES

6.1.1 The OWNER agrees to pay the ENGINEER for Basic Services as outlined in Section 2 the following lump sum fees, inclusive of all reimbursable expenditures.

Design Phase Services	\$124,200
Bidding and Award Phase Services (Phase 1)	\$7,700
Construction Phase Services (Phase 1)	\$82,600
<hr/>	
Total Lump Sum Fee	\$214,500

6.2 PAYMENT FOR ADDITIONAL SERVICES

6.2.1 The OWNER will pay the ENGINEER for Additional Services as outlined in Section 3 an amount based on actual time spent and expenses incurred by principals and employees of the ENGINEER assigned to the Project in accordance with the attached ENGINEER's standard rate and fee schedule Attachment "B", which is subject to update on an annual basis.

6.3 TIMES OF PAYMENT

6.3.1 The OWNER will make prompt monthly payments in response to the ENGINEER's monthly statements for services rendered under this Agreement.

6.4 GENERAL

6.4.1 If the OWNER fails to make any payment due the ENGINEER on account of his services and expenses within sixty days after receipt of the ENGINEER's bill therefor, the ENGINEER may, after giving seven days written notice to the OWNER, suspend services under this Agreement until he has been paid in full all amounts due him on account of his services and expenses.

6.4.2 If the Agreement is terminated at the completion of any phase of the Basic Services called for under Section 2, progress payment to be made to the ENGINEER on account of services rendered shall constitute total payment for services rendered. If this Agreement is terminated during any phase of the Basic Services, the ENGINEER shall be paid for services rendered on the basis of a reasonable estimate of the portion of such phase completed prior to termination. In the event of any termination, the ENGINEER will be paid for all his reasonable expenses resulting from such termination, and for unpaid reimbursable expenses.

6.4.3 If, prior to termination of this Agreement, any work designed or specified by the ENGINEER, under Section 2, is suspended in whole or in part for more than three months or is abandoned, after written notice from the OWNER, the ENGINEER shall be paid for services performed prior to receipt of such notice from the OWNER as provided in paragraph 6.4.2 for termination during any phase of his service.

SECTION 7 - GENERAL CONDITIONS

7.1 TERMINATION

- 7.1.1 The OWNER has the right to terminate this agreement for any reason, and without cause by providing ten (10) days written notice to the ENGINEER of such termination and specifying the effective date of such termination; provided, however, that during such period of ten (10) days the ENGINEER shall have the opportunity to remedy such failures or violations to avoid such termination.
- 7.1.2 In the event of termination, as provided herein, the ENGINEER shall be paid for all services performed and actual expenses incurred up to the date of termination pursuant to Section 6.4.2 herein.

7.2 INSURANCE AND CLAIMS

- 7.2.1 The ENGINEER will secure and maintain such insurance as will protect him from claims under workmen's compensation acts, claims for damages because of bodily injury including personal injury, sickness, or disease, or death of any of his employees or of any person other than his employees, and from claims for damages because of injury to or destruction of tangible property including loss of use resulting therefrom. Said insurance policy or policies shall be written by a company or companies and in a form and substance approved by the OWNER prior to the policies being put into effect, and shall be in an amount not less than one million dollars (\$1,000,000).

7.3 SUCCESSORS AND ASSIGNS

- 7.3.1 The OWNER and the ENGINEER each binds himself and his partners, successors, executors, administrators and assigns to the other party of this Agreement and to the partners, successors, executors, administrators and assigns of such other party, in respect to all covenants of this Agreement; except as above, neither the OWNER nor the ENGINEER will assign, sublet or transfer his interest in this Agreement without the written consent of the other. Nothing herein shall be construed as creating any personal liability on the part of any officer or agent of any public body which may be party hereto, nor shall it be construed as giving any rights or benefits hereunder to anyone other than the OWNER and the ENGINEER.

7.4 ENTIRE AGREEMENT

- 7.4.1 This Agreement constitutes the entire agreement between the OWNER and ENGINEER and supersedes all prior written or oral understandings. This Agreement may only be amended, supplemented or modified by a duly executed written instrument.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement as of the day and year first written above.

ATTACHMENT “A”
PROJECT UNDERSTANDING
WHITAKER PROPERTY PARK

The Town of Oak Ridge desires to develop a park on the Whitaker Property, purchased by the Town, located between Scoggins Road and Oak Ridge Road in Oak Ridge North Carolina. The site contains approximately 60 acres of farmland located in the Town’s Historic District. One of the Town’s goals is to preserve the open space and develop the park in concert with the rural character of the community.

The first phase of this project is planned to include approximately 7,200 linear feet of 8-foot wide asphalt paved multi-use trail, 1,065 linear feet of 6-foot wide concrete sidewalk, a 25-foot x 25-foot picnic shelter, a playground structure, two (2) lighted multi-purpose fields, restroom building, necessary parking, entrance road, utilities, and appurtenances. The estimated construction cost for this project is \$1,698,700 plus a 5% contingency of \$84,935. It is anticipated that the project will be funded by a combination of NC Park and Recreation Trust Fund grant and local monies. Future features and amenities of the project are planned to include a Veterans Memorial, six (6) tennis courts, a basketball court, and four (4) small 15-foot x 15-foot covered shelters along the walking trail. It is anticipated that on-site septic will be provided that will be permitted by Guilford County.
